Senator **John Kerry** (D-MA) has entered the fray on the proposed deal that would make **MLB Extra Innings exclusively available on DirecTV**

. In a statement issued by Kerry he said he "intends to seek answers from the FCC."

A [hearing in the Commerce, Science & Transportation Committee](#) takes place tomorrow to address the issue.

Kerry added, "I'd like to know how this serves the public - a deal which will force fans to subscribe to DirecTV in order to tune in to their favorite players. A Red Sox fan ought to be able to watch their team without having to switch to DirecTV."
